DIRECTIONS FOR USE

TURF

For use on all turfgrasses including golf course putting greens, tees, fairways and other turf areas.

Apply any time during the growing season, from the time the turf first starts greening in the spring and as long as it is actively growing in the fall.

Dilution information:

- Determine desired application rate and the intended dilution.
- Add 1/2 of the total water to the spray tank.
- Activate sprayer agitation mechanism. Measure appropriate volume of micronutrient concentrate and add to the spray tank.
- Bring spray tank to total volume with water.
- Test compatibility before adding to the spray tank. If tank mixing with pesticides follow published guidelines for compatibilities and the order of chemical additions.

FOLIAR APPLICATION

TURF AND ORNAMENTALS: Use 1 to 2 quarts of Foltec Minors per acre (0.73 fl oz to 1.47 fl oz per 1000 ft²) in a minimum of 40 gallons of water (1 gallon per 1000 ft²) with ground spray equipment. At least six applications are recommended per season. Use of this product with any nitrogen containing Foltec product will aid in foliar absorption into the plant.

FERTIGATION: Apply 1 to 2 quarts of Foltec Minors per acre via low volume irrigation

RATE TABLE

Qts./ Acre	Lbs. Iron/ Acre	Fl. Oz. Product/ 1,000 sq. ft.	MI Product/ 1,000 sq. ft.
1	0.09	0.73	21.7
2	0.17	1.47	43.4

Helpful conversion factors for working with fluids:

1 Tbsp. = 14.8 ml 1 Cup = 8 fl. oz.
2 Tbsps. = 1 fl. oz. = 29.6 ml 1 Gal. = 128 fl. oz.

PRECAUTIONS

- Test chemical compatibilities before tank mixing. Mix a small quantity of proposed chemicals in a jar at the appropriate dilutions. Allow to stand, then check consistency of mix.
- For best results, do not water sooner than necessary after application to enable increased foliar uptake of micronutrients.
- Use tank mix solutions as soon as possible after mixing. Do not store tank-mixed or diluted solutions.
- Keep lid tightly closed on container.
- Soil test results should be reviewed to provide guidelines for use of this product.
- Keep product off walks, driveways and stonework to prevent discoloration.
- Do not apply product 2 or 3 days prior to an anticipated frost.
- Temporary staining of turf may occur at higher rates. It should disappear after 1-2 mowings. If staining is of concern on ornamentals, do not use more than 4 qts. of product per acre applied to the foliage.

WARNING: This fertilizer carries added boron and is intended for use only on turf and ornamentals. Its use on any other crop or under conditions other than those recommended may result in serious injury to the crops.

STORAGE AND DISPOSAL

Store in a cool dry place.
Do not store at temperatures exceeding 100°F for an extended period of time. Do not store at freezing temperatures. Shake well before using.
